The Metals USA insulated metal roofing panels in the colors listed above are eligible Building Envelope Components for the Federal Tax Credit for non-business energy property under §25C of the Internal Revenue Code when affixed to a dwelling unit or appurtenant structure and qualify for the Federal Energy Star Tax Credit.

Roofing	Energy Star Qualified	Metal Roofs	30% of cost, up to \$1,500.00	All ENERGY STAR metal and asphalt roofs qualify for the Federal Tax Credit. Must be expected to last 5 years OR have a 2 year warranty.
---------	-----------------------	-------------	-------------------------------	---

*Installation costs NOT included. Manufacturer's Certification Statement required. \$1,500.00 maximum per homeowner for all improvements.

Homeowners should consult their tax advisor regarding availability of the tax credit. Each of Metals USA Building Products, L.P., its directors, officers, agents and affiliates, disclaims any and all liability for the taxpayer's ability to receive tax credits.

This form, the original roofing receipt and the Manufacturer's Certification Statement to be kept with Homeowners records. Submittal with the Tax Return not required.
